Strengthening Customs monitoring at Velana International Airport

This is to inform that monitoring at international departure and arrival areas at Velana International Airport has been strengthened and that all items carried along by airport staff and visitors when exiting international terminals will be inspected by Customs.

We therefore advise you NOT to take possession of anything from a passenger/crew, incoming or outgoing, before it has been cleared through Customs. We also advise you NOT to bring items other than those personal belongings deemed reasonable into Customs Controlled Areas. Should such a need arise, prior approval from Customs shall be obtained.

We take this opportunity to remind you that smuggling and obstructing a customs officer from carrying out their lawful duty are prosecutable offences.

We look forward to your full co-operation.

Abdulla Shareef
Commissioner General of Customs
